

# January 23, 2022, 22 Cal. RF Indoor Rifle Match

Greetings shooters, we will have our first rifle match (indoor) of the New Year on January 23. It will be a 22 RF rifle match, 50 feet, no sling palm rest or shoulder hook allowed, standing, any non-optical sight, and 50 rounds of ammunition at paper targets.

Due to the Covid 19 restrictions the match and range is operating under slight modifications. Please bring your face mask if you feel more comfortable using it. The range will be sanitized before the match and hand sanitized will be available. If you have your own, bring it!

We will have a variety of targets per stage, 10 minutes each stage, scoring between each stage with 10 minutes of unlimited sighters before the match starts. First shot at 10 AM but please arrive earlier (some time after 9AM) to fill out the paper work, find a spot on the line and help set up the targets. As a reminder eye and ear protection are required to be worn inside the range whether shooting or not, as per club rules and all rifles that are out of their cases must have an ECI inserted. For this event, when rifles are brought into the range, the cased rifles should be immediately placed on the shooting bench designated for rifle storage and kept on a shooting bench except when called to the firing line for shooting, arriving or departing. This is a no charge match. Remember to bring extra ammo for the sighters. Guests (non members) are welcome. All rifle types welcome.

Regards,  
Nick, Paul and Blasé
